This year, started with the COVID-19 and swayed by it, is about to end. Supposed to be the best year because of Tokyo Olympic Games, but seems to become the worst one due to the influence of new coronavirus.

Vaccine was finally developed at the end of the year and vaccination drive has already begun in several countries. We truly hope coronavirus will come to an end, people around the world return to normal life as soon as possible and coming year become the perfect one for everybody.

We continue to do our best to make next year better for our school and we still look forward to your support and encouragement.
